

2. The mechanisms referred to in paragraph 1 shall be such as to facilitate the submission of sufficiently precise and adequately substantiated notices. To that end, the providers of hosting services shall take the necessary measures to enable and to facilitate the submission of notices containing all of the following elements:

- (a) a sufficiently substantiated explanation of the reasons why the individual or entity alleges the information in question to be illegal content;
- (b) a clear indication of the exact electronic location of that information, such as the exact URL or URLs, and, where necessary, additional information enabling the identification of the illegal content adapted to the type of content and to the specific type of hosting service;
- (c) the name and email address of the individual or entity submitting the notice, except in the case of information considered to involve one of the offences referred to in Articles 3 to 7 of Directive 2011/93/EU;
- (d) a statement confirming the bona fide belief of the individual or entity submitting the notice that the information and allegations contained therein are accurate and complete.

3. Notices referred to in this Article shall be considered to give rise to actual knowledge or awareness for the purposes of Article 6 in respect of the specific item of information concerned where they allow a diligent provider of hosting services to identify the illegality of the relevant activity or information without a detailed legal examination.

4. Where the notice contains the electronic contact information of the individual or entity that submitted it, the provider of hosting services shall, without undue delay, send a confirmation of receipt of the notice to that individual or entity.

5. The provider shall also, without undue delay, notify that individual or entity of its decision in respect of the information to which the notice relates, providing information on the possibilities for redress in respect of that decision.

6. Providers of hosting services shall process any notices that they receive under the mechanisms referred to in paragraph 1 and take their decisions in respect of the information to which the notices relate, in a timely, diligent, non-arbitrary and objective manner. Where they use automated means for that processing or decision-making, they shall include information on such use in the notification referred to in paragraph 5.

Article 17

Statement of reasons

1. Providers of hosting services shall provide a clear and specific statement of reasons to any affected recipients of the service for any of the following restrictions imposed on the ground that the information provided by the recipient of the service is illegal content or incompatible with their terms and conditions:

- (a) any restrictions of the visibility of specific items of information provided by the recipient of the service, including removal of content, disabling access to content, or demoting content;
- (b) suspension, termination or other restriction of monetary payments;
- (c) suspension or termination of the provision of the service in whole or in part;
- (d) suspension or termination of the recipient of the service's account.

2. Paragraph 1 shall only apply where the relevant electronic contact details are known to the provider. It shall apply at the latest from the date that the restriction is imposed, regardless of why or how it was imposed.

Paragraph 1 shall not apply where the information is deceptive high-volume commercial content.

3. The statement of reasons referred to in paragraph 1 shall at least contain the following information:
 - (a) information on whether the decision entails either the removal of, the disabling of access to, the demotion of or the restriction of the visibility of the information, or the suspension or termination of monetary payments related to that information, or imposes other measures referred to in paragraph 1 with regard to the information, and, where relevant, the territorial scope of the decision and its duration;
 - (b) the facts and circumstances relied on in taking the decision, including, where relevant, information on whether the decision was taken pursuant to a notice submitted in accordance with Article 16 or based on voluntary own-initiative investigations and, where strictly necessary, the identity of the notifier;
 - (c) where applicable, information on the use made of automated means in taking the decision, including information on whether the decision was taken in respect of content detected or identified using automated means;
 - (d) where the decision concerns allegedly illegal content, a reference to the legal ground relied on and explanations as to why the information is considered to be illegal content on that ground;
 - (e) where the decision is based on the alleged incompatibility of the information with the terms and conditions of the provider of hosting services, a reference to the contractual ground relied on and explanations as to why the information is considered to be incompatible with that ground;
 - (f) clear and user-friendly information on the possibilities for redress available to the recipient of the service in respect of the decision, in particular, where applicable through internal complaint-handling mechanisms, out-of-court dispute settlement and judicial redress.
4. The information provided by the providers of hosting services in accordance with this Article shall be clear and easily comprehensible and as precise and specific as reasonably possible under the given circumstances. The information shall, in particular, be such as to reasonably allow the recipient of the service concerned to effectively exercise the possibilities for redress referred to in of paragraph 3, point (f).
5. This Article shall not apply to any orders referred to in Article 9.

Article 18

Notification of suspicions of criminal offences

1. Where a provider of hosting services becomes aware of any information giving rise to a suspicion that a criminal offence involving a threat to the life or safety of a person or persons has taken place, is taking place or is likely to take place, it shall promptly inform the law enforcement or judicial authorities of the Member State or Member States concerned of its suspicion and provide all relevant information available.
2. Where the provider of hosting services cannot identify with reasonable certainty the Member State concerned, it shall inform the law enforcement authorities of the Member State in which it is established or where its legal representative resides or is established or inform Europol, or both.

For the purpose of this Article, the Member State concerned shall be the Member State in which the offence is suspected to have taken place, to be taking place or to be likely to take place, or the Member State where the suspected offender resides or is located, or the Member State where the victim of the suspected offence resides or is located.

SECTION 3

Additional provisions applicable to providers of online platforms*Article 19***Exclusion for micro and small enterprises**

1. This Section, with the exception of Article 24(3) thereof, shall not apply to providers of online platforms that qualify as micro or small enterprises as defined in Recommendation 2003/361/EC.

This Section, with the exception of Article 24(3) thereof, shall not apply to providers of online platforms that previously qualified for the status of a micro or small enterprise as defined in Recommendation 2003/361/EC during the 12 months following their loss of that status pursuant to Article 4(2) thereof, except when they are very large online platforms in accordance with Article 33.

2. By derogation from paragraph 1 of this Article, this Section shall apply to providers of online platforms that have been designated as very large online platforms in accordance with Article 33, irrespective of whether they qualify as micro or small enterprises.

*Article 20***Internal complaint-handling system**

1. Providers of online platforms shall provide recipients of the service, including individuals or entities that have submitted a notice, for a period of at least six months following the decision referred to in this paragraph, with access to an effective internal complaint-handling system that enables them to lodge complaints, electronically and free of charge, against the decision taken by the provider of the online platform upon the receipt of a notice or against the following decisions taken by the provider of the online platform on the grounds that the information provided by the recipients constitutes illegal content or is incompatible with its terms and conditions:

- (a) decisions whether or not to remove or disable access to or restrict visibility of the information;
- (b) decisions whether or not to suspend or terminate the provision of the service, in whole or in part, to the recipients;
- (c) decisions whether or not to suspend or terminate the recipients' account;
- (d) decisions whether or not to suspend, terminate or otherwise restrict the ability to monetise information provided by the recipients.

2. The period of at least six months referred to in paragraph 1 of this Article shall start on the day on which the recipient of the service is informed about the decision in accordance with Article 16(5) or Article 17.

3. Providers of online platforms shall ensure that their internal complaint-handling systems are easy to access, user-friendly and enable and facilitate the submission of sufficiently precise and adequately substantiated complaints.

4. Providers of online platforms shall handle complaints submitted through their internal complaint-handling system in a timely, non-discriminatory, diligent and non-arbitrary manner. Where a complaint contains sufficient grounds for the provider of the online platform to consider that its decision not to act upon the notice is unfounded or that the information to which the complaint relates is not illegal and is not incompatible with its terms and conditions, or contains information indicating that the complainant's conduct does not warrant the measure taken, it shall reverse its decision referred to in paragraph 1 without undue delay.

5. Providers of online platforms shall inform complainants without undue delay of their reasoned decision in respect of the information to which the complaint relates and of the possibility of out-of-court dispute settlement provided for in Article 21 and other available possibilities for redress.

6. Providers of online platforms shall ensure that the decisions, referred to in paragraph 5, are taken under the supervision of appropriately qualified staff, and not solely on the basis of automated means.

Article 21

Out-of-court dispute settlement

1. Recipients of the service, including individuals or entities that have submitted notices, addressed by the decisions referred to in Article 20(1) shall be entitled to select any out-of-court dispute settlement body that has been certified in accordance with paragraph 3 of this Article in order to resolve disputes relating to those decisions, including complaints that have not been resolved by means of the internal complaint-handling system referred to in that Article.

Providers of online platforms shall ensure that information about the possibility for recipients of the service to have access to an out-of-court dispute settlement, as referred to in the first subparagraph, is easily accessible on their online interface, clear and user-friendly.

The first subparagraph is without prejudice to the right of the recipient of the service concerned to initiate, at any stage, proceedings to contest those decisions by the providers of online platforms before a court in accordance with the applicable law.

2. Both parties shall engage, in good faith, with the selected certified out-of-court dispute settlement body with a view to resolving the dispute.

Providers of online platforms may refuse to engage with such out-of-court dispute settlement body if a dispute has already been resolved concerning the same information and the same grounds of alleged illegality or incompatibility of content.

The certified out-of-court dispute settlement body shall not have the power to impose a binding settlement of the dispute on the parties.

3. The Digital Services Coordinator of the Member State where the out-of-court dispute settlement body is established shall, for a maximum period of five years, which may be renewed, certify the body, at its request, where the body has demonstrated that it meets all of the following conditions:

- (a) it is impartial and independent, including financially independent, of providers of online platforms and of recipients of the service provided by providers of online platforms, including of individuals or entities that have submitted notices;
- (b) it has the necessary expertise in relation to the issues arising in one or more particular areas of illegal content, or in relation to the application and enforcement of terms and conditions of one or more types of online platform, allowing the body to contribute effectively to the settlement of a dispute;
- (c) its members are remunerated in a way that is not linked to the outcome of the procedure;
- (d) the out-of-court dispute settlement that it offers is easily accessible, through electronic communications technology and provides for the possibility to initiate the dispute settlement and to submit the requisite supporting documents online;
- (e) it is capable of settling disputes in a swift, efficient and cost-effective manner and in at least one of the official languages of the institutions of the Union;
- (f) the out-of-court dispute settlement that it offers takes place in accordance with clear and fair rules of procedure that are easily and publicly accessible, and that comply with applicable law, including this Article.

The Digital Services Coordinator shall, where applicable, specify in the certificate:

- (a) the particular issues to which the body's expertise relates, as referred to in point (b) of the first subparagraph; and
- (b) the official language or languages of the institutions of the Union in which the body is capable of settling disputes, as referred to in point (e) of the first subparagraph.

4. Certified out-of-court dispute settlement bodies shall report to the Digital Services Coordinator that certified them, on an annual basis, on their functioning, specifying at least the number of disputes they received, the information about the outcomes of those disputes, the average time taken to resolve them and any shortcomings or difficulties encountered. They shall provide additional information at the request of that Digital Services Coordinator.

Digital Services Coordinators shall, every two years, draw up a report on the functioning of the out-of-court dispute settlement bodies that they certified. That report shall in particular:

- (a) list the number of disputes that each certified out-of-court dispute settlement body has received annually;
- (b) indicate the outcomes of the procedures brought before those bodies and the average time taken to resolve the disputes;
- (c) identify and explain any systematic or sectoral shortcomings or difficulties encountered in relation to the functioning of those bodies;
- (d) identify best practices concerning that functioning;
- (e) make recommendations as to how to improve that functioning, where appropriate.

Certified out-of-court dispute settlement bodies shall make their decisions available to the parties within a reasonable period of time and no later than 90 calendar days after the receipt of the complaint. In the case of highly complex disputes, the certified out-of-court dispute settlement body may, at its own discretion, extend the 90 calendar day period for an additional period that shall not exceed 90 days, resulting in a maximum total duration of 180 days.

5. If the out-of-court dispute settlement body decides the dispute in favour of the recipient of the service, including the individual or entity that has submitted a notice, the provider of the online platform shall bear all the fees charged by the out-of-court dispute settlement body, and shall reimburse that recipient, including the individual or entity, for any other reasonable expenses that it has paid in relation to the dispute settlement. If the out-of-court dispute settlement body decides the dispute in favour of the provider of the online platform, the recipient of the service, including the individual or entity, shall not be required to reimburse any fees or other expenses that the provider of the online platform paid or is to pay in relation to the dispute settlement, unless the out-of-court dispute settlement body finds that that recipient manifestly acted in bad faith.

The fees charged by the out-of-court dispute settlement body to the providers of online platforms for the dispute settlement shall be reasonable and shall in any event not exceed the costs incurred by the body. For recipients of the service, the dispute settlement shall be available free of charge or at a nominal fee.

Certified out-of-court dispute settlement bodies shall make the fees, or the mechanisms used to determine the fees, known to the recipient of the service, including to the individuals or entities that have submitted a notice, and to the provider of the online platform concerned, before engaging in the dispute settlement.

6. Member States may establish out-of-court dispute settlement bodies for the purposes of paragraph 1 or support the activities of some or all out-of-court dispute settlement bodies that they have certified in accordance with paragraph 3.

Member States shall ensure that any of their activities undertaken under the first subparagraph do not affect the ability of their Digital Services Coordinators to certify the bodies concerned in accordance with paragraph 3.

7. A Digital Services Coordinator that has certified an out-of-court dispute settlement body shall revoke that certification if it determines, following an investigation either on its own initiative or on the basis of the information received by third parties, that the out-of-court dispute settlement body no longer meets the conditions set out in paragraph 3. Before revoking that certification, the Digital Services Coordinator shall afford that body an opportunity to react to the findings of its investigation and its intention to revoke the out-of-court dispute settlement body's certification.

8. Digital Services Coordinators shall notify to the Commission the out-of-court dispute settlement bodies that they have certified in accordance with paragraph 3, including where applicable the specifications referred to in the second subparagraph of that paragraph, as well as the out-of-court dispute settlement bodies the certification of which they have revoked. The Commission shall publish a list of those bodies, including those specifications, on a dedicated website that is easily accessible, and keep it up to date.

9. This Article is without prejudice to Directive 2013/11/EU and alternative dispute resolution procedures and entities for consumers established under that Directive.

Article 22

Trusted flaggers

1. Providers of online platforms shall take the necessary technical and organisational measures to ensure that notices submitted by trusted flaggers, acting within their designated area of expertise, through the mechanisms referred to in Article 16, are given priority and are processed and decided upon without undue delay.

2. The status of 'trusted flagger' under this Regulation shall be awarded, upon application by any entity, by the Digital Services Coordinator of the Member State in which the applicant is established, to an applicant that has demonstrated that it meets all of the following conditions:

- (a) it has particular expertise and competence for the purposes of detecting, identifying and notifying illegal content;
- (b) it is independent from any provider of online platforms;
- (c) it carries out its activities for the purposes of submitting notices diligently, accurately and objectively.

3. Trusted flaggers shall publish, at least once a year easily comprehensible and detailed reports on notices submitted in accordance with Article 16 during the relevant period. The report shall list at least the number of notices categorised by:

- (a) the identity of the provider of hosting services,
- (b) the type of allegedly illegal content notified,
- (c) the action taken by the provider.

Those reports shall include an explanation of the procedures in place to ensure that the trusted flagger retains its independence.

Trusted flaggers shall send those reports to the awarding Digital Services Coordinator, and shall make them publicly available. The information in those reports shall not contain personal data.

4. Digital Services Coordinators shall communicate to the Commission and the Board the names, addresses and email addresses of the entities to which they have awarded the status of the trusted flagger in accordance with paragraph 2 or whose trusted flagger status they have suspended in accordance with paragraph 6 or revoked in accordance with paragraph 7.

5. The Commission shall publish the information referred to in paragraph 4 in a publicly available database, in an easily accessible and machine-readable format, and shall keep the database up to date.

6. Where a provider of online platforms has information indicating that a trusted flagger has submitted a significant number of insufficiently precise, inaccurate or inadequately substantiated notices through the mechanisms referred to in Article 16, including information gathered in connection to the processing of complaints through the internal complaint-handling systems referred to in Article 20(4), it shall communicate that information to the Digital Services Coordinator that awarded the status of trusted flagger to the entity concerned, providing the necessary explanations and supporting documents. Upon receiving the information from the provider of online platforms, and if the Digital Services Coordinator considers that there are legitimate reasons to open an investigation, the status of trusted flagger shall be suspended during the period of the investigation. That investigation shall be carried out without undue delay.

7. The Digital Services Coordinator that awarded the status of trusted flagger to an entity shall revoke that status if it determines, following an investigation either on its own initiative or on the basis information received from third parties, including the information provided by a provider of online platforms pursuant to paragraph 6, that the entity no longer meets the conditions set out in paragraph 2. Before revoking that status, the Digital Services Coordinator shall afford the entity an opportunity to react to the findings of its investigation and its intention to revoke the entity's status as trusted flagger.

8. The Commission, after consulting the Board, shall, where necessary, issue guidelines to assist providers of online platforms and Digital Services Coordinators in the application of paragraphs 2, 6 and 7.

Article 23

Measures and protection against misuse

1. Providers of online platforms shall suspend, for a reasonable period of time and after having issued a prior warning, the provision of their services to recipients of the service that frequently provide manifestly illegal content.

2. Providers of online platforms shall suspend, for a reasonable period of time and after having issued a prior warning, the processing of notices and complaints submitted through the notice and action mechanisms and internal complaints-handling systems referred to in Articles 16 and 20, respectively, by individuals or entities or by complainants that frequently submit notices or complaints that are manifestly unfounded.

3. When deciding on suspension, providers of online platforms shall assess, on a case-by-case basis and in a timely, diligent and objective manner, whether the recipient of the service, the individual, the entity or the complainant engages in the misuse referred to in paragraphs 1 and 2, taking into account all relevant facts and circumstances apparent from the information available to the provider of online platforms. Those circumstances shall include at least the following:

- (a) the absolute numbers of items of manifestly illegal content or manifestly unfounded notices or complaints, submitted within a given time frame;
- (b) the relative proportion thereof in relation to the total number of items of information provided or notices submitted within a given time frame;
- (c) the gravity of the misuses, including the nature of illegal content, and of its consequences;
- (d) where it is possible to identify it, the intention of the recipient of the service, the individual, the entity or the complainant.

4. Providers of online platforms shall set out, in a clear and detailed manner, in their terms and conditions their policy in respect of the misuse referred to in paragraphs 1 and 2, and shall give examples of the facts and circumstances that they take into account when assessing whether certain behaviour constitutes misuse and the duration of the suspension.

*Article 24***Transparency reporting obligations for providers of online platforms**

1. In addition to the information referred to in Article 15, providers of online platforms shall include in the reports referred to in that Article information on the following:
 - (a) the number of disputes submitted to the out-of-court dispute settlement bodies referred to in Article 21, the outcomes of the dispute settlement, and the median time needed for completing the dispute settlement procedures, as well as the share of disputes where the provider of the online platform implemented the decisions of the body;
 - (b) the number of suspensions imposed pursuant to Article 23, distinguishing between suspensions enacted for the provision of manifestly illegal content, the submission of manifestly unfounded notices and the submission of manifestly unfounded complaints.
2. By 17 February 2023 and at least once every six months thereafter, providers shall publish for each online platform or online search engine, in a publicly available section of their online interface, information on the average monthly active recipients of the service in the Union, calculated as an average over the period of the past six months and in accordance with the methodology laid down in the delegated acts referred to in Article 33(3), where those delegated acts have been adopted.
3. Providers of online platforms or of online search engines shall communicate to the Digital Services Coordinator of establishment and the Commission, upon their request and without undue delay, the information referred to in paragraph 2, updated to the moment of such request. That Digital Services Coordinator or the Commission may require the provider of the online platform or of the online search engine to provide additional information as regards the calculation referred to in that paragraph, including explanations and substantiation in respect of the data used. That information shall not include personal data.
4. When the Digital Services Coordinator of establishment has reasons to consider, based the information received pursuant to paragraphs 2 and 3 of this Article, that a provider of online platforms or of online search engines meets the threshold of average monthly active recipients of the service in the Union laid down in Article 33(1), it shall inform the Commission thereof.
5. Providers of online platforms shall, without undue delay, submit to the Commission the decisions and the statements of reasons referred to in Article 17(1) for the inclusion in a publicly accessible machine-readable database managed by the Commission. Providers of online platforms shall ensure that the information submitted does not contain personal data.
6. The Commission may adopt implementing acts to lay down templates concerning the form, content and other details of reports pursuant to paragraph 1 of this Article. Those implementing acts shall be adopted in accordance with the advisory procedure referred to in Article 88.

*Article 25***Online interface design and organisation**

1. Providers of online platforms shall not design, organise or operate their online interfaces in a way that deceives or manipulates the recipients of their service or in a way that otherwise materially distorts or impairs the ability of the recipients of their service to make free and informed decisions.
2. The prohibition in paragraph 1 shall not apply to practices covered by Directive 2005/29/EC or Regulation (EU) 2016/679.
3. The Commission may issue guidelines on how paragraph 1 applies to specific practices, notably:
 - (a) giving more prominence to certain choices when asking the recipient of the service for a decision;

- (b) repeatedly requesting that the recipient of the service make a choice where that choice has already been made, especially by presenting pop-ups that interfere with the user experience;
- (c) making the procedure for terminating a service more difficult than subscribing to it.

Article 26

Advertising on online platforms

1. Providers of online platforms that present advertisements on their online interfaces shall ensure that, for each specific advertisement presented to each individual recipient, the recipients of the service are able to identify, in a clear, concise and unambiguous manner and in real time, the following:

- (a) that the information is an advertisement, including through prominent markings, which might follow standards pursuant to Article 44;
- (b) the natural or legal person on whose behalf the advertisement is presented;
- (c) the natural or legal person who paid for the advertisement if that person is different from the natural or legal person referred to in point (b);
- (d) meaningful information directly and easily accessible from the advertisement about the main parameters used to determine the recipient to whom the advertisement is presented and, where applicable, about how to change those parameters.

2. Providers of online platforms shall provide recipients of the service with a functionality to declare whether the content they provide is or contains commercial communications.

When the recipient of the service submits a declaration pursuant to this paragraph, the provider of online platforms shall ensure that other recipients of the service can identify in a clear and unambiguous manner and in real time, including through prominent markings, which might follow standards pursuant to Article 44, that the content provided by the recipient of the service is or contains commercial communications, as described in that declaration.

3. Providers of online platforms shall not present advertisements to recipients of the service based on profiling as defined in Article 4, point (4), of Regulation (EU) 2016/679 using special categories of personal data referred to in Article 9(1) of Regulation (EU) 2016/679.

Article 27

Recommender system transparency

1. Providers of online platforms that use recommender systems shall set out in their terms and conditions, in plain and intelligible language, the main parameters used in their recommender systems, as well as any options for the recipients of the service to modify or influence those main parameters.

2. The main parameters referred to in paragraph 1 shall explain why certain information is suggested to the recipient of the service. They shall include, at least:

- (a) the criteria which are most significant in determining the information suggested to the recipient of the service;
- (b) the reasons for the relative importance of those parameters.

3. Where several options are available pursuant to paragraph 1 for recommender systems that determine the relative order of information presented to recipients of the service, providers of online platforms shall also make available a functionality that allows the recipient of the service to select and to modify at any time their preferred option. That functionality shall be directly and easily accessible from the specific section of the online platform's online interface where the information is being prioritised.

*Article 28***Online protection of minors**

1. Providers of online platforms accessible to minors shall put in place appropriate and proportionate measures to ensure a high level of privacy, safety, and security of minors, on their service.
2. Providers of online platform shall not present advertisements on their interface based on profiling as defined in Article 4, point (4), of Regulation (EU) 2016/679 using personal data of the recipient of the service when they are aware with reasonable certainty that the recipient of the service is a minor.
3. Compliance with the obligations set out in this Article shall not oblige providers of online platforms to process additional personal data in order to assess whether the recipient of the service is a minor.
4. The Commission, after consulting the Board, may issue guidelines to assist providers of online platforms in the application of paragraph 1.

*SECTION 4****Additional provisions applicable to providers of online platforms allowing consumers to conclude distance contracts with traders****Article 29***Exclusion for micro and small enterprises**

1. This Section shall not apply to providers of online platforms allowing consumers to conclude distance contracts with traders that qualify as micro or small enterprises as defined in Recommendation 2003/361/EC.

This Section shall not apply to providers of online platforms allowing consumers to conclude distance contracts with traders that previously qualified for the status of a micro or small enterprise as defined in Recommendation 2003/361/EC during the 12 months following their loss of that status pursuant to Article 4(2) thereof, except when they are very large online platforms in accordance with Article 33.

2. By derogation from paragraph 1 of this Article, this Section shall apply to providers of online platforms allowing consumers to conclude distance contracts with traders that have been designated as very large online platforms in accordance with Article 33, irrespective of whether they qualify as micro or small enterprises.

*Article 30***Traceability of traders**

1. Providers of online platforms allowing consumers to conclude distance contracts with traders shall ensure that traders can only use those online platforms to promote messages on or to offer products or services to consumers located in the Union if, prior to the use of their services for those purposes, they have obtained the following information, where applicable to the trader:

- (a) the name, address, telephone number and email address of the trader;
- (b) a copy of the identification document of the trader or any other electronic identification as defined by Article 3 of Regulation (EU) No 910/2014 of the European Parliament and of the Council ⁽⁴⁰⁾;

⁽⁴⁰⁾ Regulation (EU) No 910/2014 of the European Parliament and of the Council of 23 July 2014 on electronic identification and trust services for electronic transactions in the internal market and repealing Directive 1999/93/EC (OJ L 257, 28.8.2014, p. 73).
